

PREPAREDNESS PARTNERS WEBINAR SERIES

Presented by **LOGISTA**

FOCUS

Innovation, lessons learned and best practices in the emergency management and public health space.

AUDIENCE

Emergency managers and public health professionals at the local, state and federal level.

WHY

We're emergency managers and we have seen some amazing things happening around the country. Unfortunately, too often this information doesn't make it off an AAR or isn't shared with other agencies it would benefit. This is a quick, informal space for emergency managers to gather and listen to some of the exciting things happening with their peers.

DATES

All webinars are hosted at 2 p.m. ET/11 a.m. PT starting in February.

FOCUS AREAS

LESSONS LEARNED
FROM RECENT EVENTS

INNOVATIVE THINKING
